OPERATIONAL

ENMOOSKY - Contact Report

1. On 2 April 1953   met ENMOOSKY in Stuttgart.

2. ENMOOSKY reported that he decided to go to work for Dr. Graf of Horn/Lippe (See ICP-A-12546 for a name trace on Dr. Heinz-Joachim Graf). He said that his work for the first three months would be to learn everything he could about the Finnish shipping industry with special emphasis on those Finnish ships which visited Satellite and Soviet ports on the Baltic. During this period he expects to make whatever contacts he can from among his old colleagues. At the end of this time he will move to Hamburg to take up his residence and develop the operation. Dr. Graf did not definitely tell him what the operation would be at the end of three months but he felt it would be for intelligence purposes. For his cover, ENMOOSKY has become a salesman for a leather firm in Stuttgart and a motorcycle firm in Bielefeld.   asked ENMOOSKY what had happened to his offer of a job from Utility. ENMOOSKY was especially vague in his answer of how it fell through.

3. Concerning his employer, Dr. Graf, ENMOOSKY was not sure exactly for whom he worked, but was convinced that it was the British. ENMOOSKY believed that Dr. Graf was setting up, with the help of the British, a group of experts on foreign countries similar to the group that Utility has set up. ENMOOSKY had no way of confirming this but he felt it to be a logical assumption with all of Dr. Graf's activities and contacts in the British Zone.

4. ENMOOSKY told   that he could always be contacted

bei Rechtsanwalt  
Guenther LEONHARDT  
Stuttgart 0.  
Urbanstr. 35 II  
Telephone: 96195.

5.   and ENMOOSKY had a short discussion on the changes in the current Russian line which was of no significance. ENMOOSKY also discussed his current shortage of cash and apparent need for money. He did not ask for any money nor did   give him any.

6 April 1953
